EDUCATION

New York University
M.S. in Computer Science

New York, NY
Sep 2025 - May 2027

Birla Institute of Technology and Science, Pilani, K. K. Birla Goa Campus
B.E. in Computer Science

Goa, India
Aug 2018 - Jun 2022

EXPERIENCE

Microsoft
Software Engineer

Jul 2022 - Jul 2025
Hyderabad, India

- Designed and shipped backup and restore orchestration features for Azure BCDR services, enabling protection of SQL and SAP workloads on Azure VMs and driving enterprise adoption across large-scale production environments
- Devised a secondary job-validation pipeline to eliminate false restore failures, improving **restore SLA** compliance to **99.8%** and preventing inconsistent state propagation across distributed backup services
- Collaborated with product and marketing teams and led development of **high-availability** backup support for SAP ASE, delivering **24/7 resilient recovery** capabilities for enterprise customers and accelerating onboarding through streamlined Blob storage integration (**30%** faster deployments)
- Identified security gaps and engineered an automated machine learning remediation agent resolving **800+ vulnerabilities** across **120+ repositories**, reducing manual effort by **95%** and improving service security posture and compliance readiness
- Executed large-scale migration of **80+** deprecated BCDR pipelines, modernizing critical infrastructure components and ensuring alignment with reliability and secure SDLC standards
- Acted as primary responder during a ransomware incident affecting **80+ customer VMs**, designing retention-bypass recovery workflows and coordinating restore sequencing to achieve full workload recovery under strict operational timelines
- Drove live-site reliability improvements through health monitoring, incident diagnosis, and production mitigation, strengthening SLA adherence for mission-critical enterprise backup workloads, reducing sev-2 outages by **0.8%**

Microsoft
Software Engineer Intern

Jun 2021 – Sep 2021, Jan 2022 – Jun 2022
Hyderabad, India

- Implemented Partial Restore capability for Azure Backup, reducing restore duration for incremental backups by **40%** and enabling faster log-based recovery scenarios
- Designed parallelized Full Sync infrastructure to optimize backup stage execution, lowering service latency and reducing microservice load and operational cost by **25%**

PROJECTS

[LinkedIn Post Generator — AI Full-Stack Platform](#)

Dec 2025 - Jan 2026

- Independently identified a gap in professional content creation and conceptualized a full-stack AI platform for generating and managing professional LinkedIn posts, integrating LLM-based content generation with article discovery from **12+ sources** and performance tracking
- Created a React + TypeScript frontend with an Express backend and PostgreSQL persistence layer, implementing secure session-based authentication and scalable REST APIs

[Erica AI — GraphRAG Course Tutor](#)

Sep 2025 - Dec 2025

- Developed an intelligent course tutor using Graph-based Retrieval Augmented Generation, designing a multi-stage pipeline for ingestion, knowledge graph construction, and scaffolded answer generation, spanning **1300+ RAG concepts**
- Architected a hybrid storage system combining MongoDB for raw multi-source ingestion and Neo4j knowledge graphs modeling prerequisite relationships and concept dependencies
- Built LLM-powered concept extraction and relationship inference pipeline with local GPU inference (Ollama), enabling privacy-preserving question answering with structured citations and pedagogical progression

SKILLS

Languages

C#, Python, Java, TypeScript, JavaScript, SQL

Distributed Systems

Microsoft Azure, High Availability, Microservices Architecture, REST APIs

Backend & Frameworks

.NET, Node.js, React, Asynchronous Programming, API Design

Databases & Storage

SQL Server, SAP HANA, SAP ASE, MongoDB, Blob Storage, Transactional Systems

Developer Tools

Git, Docker, Kubernetes, CI/CD, Linux, MATLAB

AI / Machine Learning

PyTorch, GraphRAG, Numpy, Pandas, OpenCV, Scikit-learn, Matplotlib, CNN, RNN, ResNets

Soft Skills

Verbal Communication, Problem Solving, Public speaking, Cross-team Collaboration
